CHRONO

Warehouse Management System

CHRONO⊕⁺

Designed by experts, **CHRONO⁺** is an integrated Warehouse Management System (WMS) for the tasks that matter and for people who care seriously about their business.

WHAT MAKES A GOOD WMS?

WAREHOUSE MANAGEMENT SYSTEM

A good WMS relies on the adaptability of its users, highly dependent on their specific requirements.

up to
20%
Increase in cost efficiency

up to
40%
Increase in labor productivity

up to
20%
Increase in space utilization

up to
12%
Improvement in throughput

over
99%
Bin inventory accuracy

FEATURE HIGHLIGHTS

FULL RANGE OF FUNCTIONALITY

CHRONO⁺ WMS boasts automated support in processing all goods in your warehouse from basic features of Receiving, Put-away, Order Picking to Dispatch.

CHRONO⁺ is designed to operate in both dry and cold warehouse environments.

Aside from this, CHRONO⁺ also supports advanced features like Batch Picking, Consolidation, Item Transformation, and Kitting

WAREHOUSE INTELLIGENCE

CHRONO⁺ provides a Customizable Dashboard with Configurable Workflow and Reports. Users can tailor the WMS to implement specific warehouse requirements and control.

We understand that monitoring the status of daily warehouse activities is vital for operations. In CHRONO⁺, users can access Real-time Utilization, Key Performance Indicators, and Management commitments.

FEATURE HIGHLIGHTS

IN SYNC LOGISTICS ACTIVITIES

By using a hand-held wireless RFID (radio frequency identification) technology, **CHRONO⁺** reduces time and labor; and improves data accuracy.

Get closer to your clients, through Customer Portal accessible via web and integrated with email, sms, and social messaging applications.

CHRONO⁺ is also compatible with a variety of ERP (Enterprise Resource Planning) software, auto replenishment tools, and advanced picking systems (e.g. Put-to-Light/Pick-to-Light) furthering effectiveness of WMS.

DYNAMIC BILLING & VALUE ADDED SERVICE

Improve revenue capture by assigning billing to any warehouse services used. CHRONO periodically calculates the quantity of services used for a billing period.

CHRONO⁺ understands that your clients' needs are continuously evolving. Thus, we designed the WMS to include Value Added Services (VAS) to address these ever changing requirements.

Aside from this, the WMS also includes advanced features that support Product transformation, Blast Freezing, and Bundling/Unbundling activities.

CHRONO+

Warehouse Management System

CUSTOMER SERVICE

Our solutions and implementation methodologies are built on solid industry experience in manufacturing, distribution, and retail combined with extensive capabilities in systems design, deployment, and support.

Our goal is to translate your business requirements to a practical and cost effective solution using proven technologies that are within your reach.

Get closer than ever to your customers. So close that you tell them what they need well before they realize it themselves.
